

Fabien Crapetto

FRONT & BACK DEVELOPER

ABOUT

Throughout the years, I have been working with different workflows and languages thus building my flexibility and constant need for learning. While my experience led me to master Frontend technos, such as **Tailwind/CSS3/SASS** or **VueJS/JS/jQuery**, I've also improved my Backend (**Drupal/PHP/WordPress**) and Full-stack (**Bash/AWS**) skills to be as polyvalent as possible.

WORK EXPERIENCE

CLBS

 <https://www.clbs.co.th>

2019 – 2023

Front/Back-end Developer

Responsible for the maintenance and improvement of 8 sites using a self-customed **Drupal 9** architecture, I have worked on integrating templates (made on Adobe XD), creating Drupal custom modules, updating Drupal core (from 7 to 9), handling and monitoring the analytics, setting workflows and processes, and much more...

Highlights

Fullstack setup and setup upgrade
(**Drupal/Docker/Bash/Makefile**)

LEAN STREET

 <https://leanstreet.io>

2018 – 2019

Senior Frontend Developer

For over a year, 17hats was my main client. I was tasked to port received design to HTML, for the client's public website and helped solving problems on their main web app (**React/KnockoutJS**). I also worked with GiveInKind on their current website to clean the frontend before launch.

Highlights

Functionality debugging

UX and **UI** redesigning

Complete rebuilding of front site

EDUCATION & TRAINING

2001  **EPSIC**

2005

 Bachelor pro

Information Technology

2010  **Cambridge Assessment**

2010

 B2 FCE

English

IGLU

 <https://iglu.net>

2015 – 2018

Frontend Developer

Created the design and developed the whole frontend of the previous IGLU website. I also worked for 17hats (client I kept when moved to Leanstreet). During the first year, I dealt with several clients, from maintaining the frontend of their public website to refactoring their **SCSS** architecture.

Highlights

Complete rebuilding/redesigning of their front site

LANGUAGES

French	Native speaker
